

24/7 roadside assistance and towing coverage for truckers

The road can be an uncertain place and chances are truckers will eventually experience a breakdown. Northland's roadside assistance and towing is a value-added coverage for accounts with up to ten power units.¹

Time is valuable and Northland's roadside assistance and towing coverage helps truckers get back on the road quickly. Because coverage is provided via reimbursement, they can choose the service provider.²

Northland's roadside assistance and towing coverage includes:

- Towing or flatbed transport from location of disablement to nearest facility capable of making repairs.
- Jump-starting a dead battery.
- Changing a flat tire.
- Key lockout service – you only pay for the new keys.
- Delivery of fuel, oil, water or other vehicle fluids; you only pay for the supplies.
- Winching or towing due to entrapment in snow, mud, water or sand within 100 feet of a road or highway.

Adding roadside assistance and towing to our full array of coverages and specialized services is just one more way we are delivering the Northland AdvantageSM to you and your customers.

¹Currently unavailable in California, New York, Texas and Virginia.

²We will reimburse the amount of the expenses that exceed the deductible up to the applicable limit of insurance for the applicable coverage.

Additional available coverages

- Auto liability, general liability, cargo, physical damage; non-trucking liability, family emergency medical travel; identity theft, tool and equipment floater.
- Deluxe coverage for downtime and rental reimbursement, diminishing and aggregate deductibles, personal property.

Additional benefits of working with Northland

- Risk control solutions, including complimentary access to online safety training courses.
- Industry-leading Special Investigations Group (SIG) offering cargo security consultation, and accident and theft investigation.
- Transportation claim specialists.
- Dedicated transportation attorneys.

Northland has insured trucking businesses since 1948. We know what it takes to keep trucks on the road, safely and profitably.
